RESEARCH TEAM

We encourage teamwork because the results are far superior to all the efforts of the individual researchers added together

- VHIO is the tangible result of a very personal vision of the concept of research. It is the product of converting translational research into an organizational structure where a complete team of professionals works together to unite efforts, examine problems from different angles and provide solutions; always with the same goal of understanding the mechanisms behind cancer and the best response to it.

José Baselga

Scientific Director of VHIO

Joaquín Arribas

P.I. of the Growth Factors Group

Judith Balmaña

P.I. of the High Risk and Cancer Prevention Group

Francesc Canals

P.I. of the Proteomics Group

Joan Carles

P.I. of the Genitourinary, Central Nervous System (CNS) tumors, Sarcoma and Cancer of Unknown Primary Site Program

Javier Cortés

P.I. of the Breast Cancer Program Group

Josep Maria del Campo

P.I. of the Head, Neck and Gynecological Tumors Group

Orland Díez

P.I. of the Oncogenetics Group

Enriqueta Felip

P.I. of the Thoracic Tumors Group

Jordi Giralt

P.I. of the Radiation Oncology Group

Héctor G. Palmer

P.I. of the Stem Cells and Cancer Group

Santiago Ramón y Cajal
P.I of the Molecular Pathology Group

Joan Seoane
P. I of the Gene Expression and Cancer Group

Josep Tabernero
P.I of the Gastrointestinal Tumors Group

Josep Villanueva
P.I of the Tumor Biomarkers Group

Ana Vivancos
P.I of the Cancer Genomics Group
